REMARKS

In the Advisory Action dated May 20, 2005, the Examiner implies that the claims contain new matter. Applicants submit that illustrative, non-limiting embodiments contained in the specification fully supports the claims.

For example, Figs. 1-3 show a non-limiting embodiment of claim 1 relating to a wireless terminal (Fig. 2) for mobile unit (*e.g.* a car (Fig. 1)) which is mounted in the mobile unit and conducts communication with a wireless base station (*e.g.* center (Fig. 1)) through wireless. Also, the wireless terminal comprises an operating section (*e.g.* the keyboard 1 and the emergency button 13) and a controller (*e.g.* a CPU or control part 2).

The operating section 1 and 13 starts communication with the wireless base station. (Fig. 3 (operations S2, S4, and S10)). The controller 2 performs a first operation (*e.g.* a secret mode
